## How to Measure Your Own Ring Size

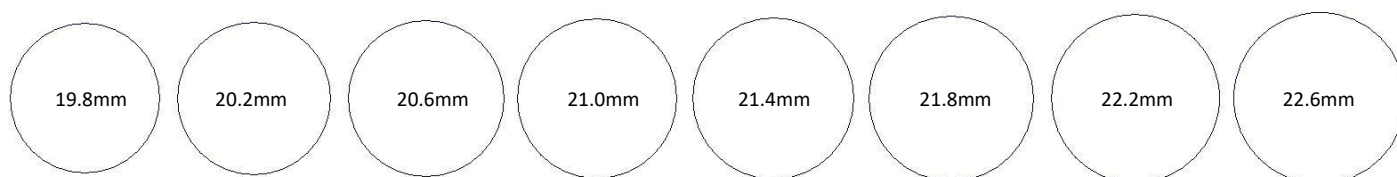

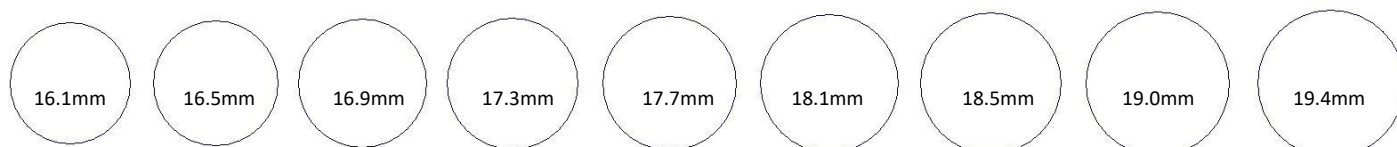

- Ring size measurement need to be careful and precise.
- Please print out the ring size ruler below to make an accurate measurement.

1. **Prior to printing**, ensure the setting in "Page Sizing & Handling" is set to "Actual size" or "None" on your print dialog box. (To open the print dialog box, press CTRL+P)
2. **The ruler on the left must be exactly 30mm long after print out.**

- Normally, selecting a fit ring is depending on the Inside Diameter.
- The circles below can be used for matching the diameter (inside diameter) of your rings' inside edge.
- If your ring is between two sizes, we suggest you to order the bigger size.

## Measurement Precautions

### Measuring Your Finger's Size

For a comfortably fit ring, it will not fall off while you are wearing it snugly, but also can be slide through your knuckle.

**Note:** finger's size is varying under different temperature, weather, and timing in a day. Therefore:

- Please measure your finger under a stable and warm surrounding, for example during the night time while your hands are warm.
- Please measure your finger separately about three to four times to avoid error of measuring and misreading the measurement ruler.

Prevent using the same paper ruler or rope repeatedly, because these materials will twist and elongate, which will cause deviation in measurement result.

### BDD Co. Size Standard

The size showing in BDD Co. website is US & Canada standard. You can find out your ring size by using the International Ring Size Comparison Chart, if you already know the ring size in other countries' standard or the measurement result.

For example:

- If you already know size 8 in Japan & Singapore, your ring size is 4.5 in US & Canada.
- If your inside diameter is 18.1mm, your ring size will be size 8 in US & Canada.
